

An abstract painting with a textured surface. The colors are primarily green, yellow, and blue, with some white and orange tones. The brushstrokes are visible and somewhat chaotic, creating a sense of movement and depth. The overall composition is dense and layered.

*Hello! I am Anjeza Cepa and I am a student of “Abdyl Paralloi” school in 9’th grade. I live in “Beqir Dardha ” district. Our economical conditions are hard and bad, my house is in bad conditions too. We’re 8 members and we live in a small house. I want a good life, but this is impossible. This project has helped me and my older sister. My sister and I try to pay off this help getting good marks in the school. Also teachers of the project help us with the homework and many other things necessary for the lessons.  
Thank you from my heart. I will be grateful for the whole life.*
