

An abstract painting with a vibrant, textured surface. The colors are primarily shades of green, yellow, and blue, with some white and orange tones. The brushstrokes are visible and expressive, creating a sense of movement and depth. The overall composition is a mix of organic, flowing shapes and more defined, angular forms.

*My name is Elida Budani. I am student in grade 9 in “Abdyl Paralloi” school. From one year I’m part of “ECE” foundation. From this foundation I got various assistance. Along this year 2016-2017 I have gained school supplies and basic help that is food. We are many members in family. With difficulty we complete basic needs. I don’t have conditions to learn like my friends. It’s not enough that in the afternoon I care for my sisters and brothers because my parents work all day to bring something in home at night. I take care to be an example in school with all difficulties I have, but also for their care at school. Regardless those hard conditions I try to learn more. I do not expect luck will find me but I believe in myself and I will reach the best of me.
Thank you Foundation ECE*
