

The background of the image is an abstract painting with vibrant, textured brushstrokes in shades of green, yellow, and blue. The colors are layered and blended, creating a sense of movement and depth. The overall effect is a bright, energetic, and somewhat chaotic visual field.

*I am Sokol Hanoli a student of “Abdyl Paralloi” school in 8-th grade. My younger brother and I live with my uncle’s family in “Emin Matraxhiu” district , because my parents live and work in the village. They’re sick and they live in difficult economic conditions. Our migration happened because of our low economic level and being near the school. Me and family live in a house with minimum conditions. We’re seven members. The parent’s absence make me responsible for my younger brother. It’s a hard life, but this project has helped me a lot, giving me school and food supplies for me and my brother. This help has made me and my younger brother’s life more easy. I feel grateful for this foundation that helped us and made me feel like the other teenagers. I try to get good marks and I hope that this will pay off all your help. I thank this project from the bottom of my heart that cares about us when none else couldn’t . Thank you, Sokol Hanoli*
